Prasanna Amale

I am seeking a beginner's role to enhance and explore my technical knowledge. I hold a B.Tech degree from MIT College. An excellent communicator and quick learner who enjoys contributing to and growing with the team.

Education

Bachelor Of Technology (Mechanical Engineering) Marathwada Institute of Technology, Aurangabad.
8.7 CGPA (82%)
August2019 - July2022

Diploma in Mechanical, CSMSS College of Polytechnic, MSBTE 67.50%
August 2016 - July 2019

10th (SSC) Saraswati Bhuvan Highschool, Aurangabad.
84.60%
August 2016

Projects

- **Design and Developed landing -page for Spice Products**
  I did the design and development of the landing page for MSD Masale, an upcoming spice product company in Aurangabad city. I've got to know more about CSS and the JavaScript language.
  GitHub Link

- **Solar Based, Android App Controlled Grass Cutter**

  With the assistance of MIT App Inventor, I created an Android app and used Arduino Software to control the grass cutter. It can be operated from a 10m range via Bluetooth connectivity.

- **Regenerative Braking System**

  Regenerative braking in a vehicle not only results in the recovery of energy but also increases the efficiency of the vehicle.
  It saves energy, which is stored in the auxiliary battery.

Participated Activities

- Part of the college cricket team at university level in A.Y. 2018-19.

- Participant at Mechanical Engineering Student's Association (MESA) in F.Y.2019

- Organizer of Lan gaming event in college 2018-19.
